

RADICALXCHANGE
2021 ANNUAL CONFERENCE

A NEW ERA OF DEMOCRACY

Participation, Innovation, Deliberation, Co-Creation
November 2021 • Taiwan + Colorado + Online

RADICALXCHANGE

RadicalxChange's Annual Conferences center on bringing democracy and markets into the 21st century through a radically more egalitarian and participatory vision for the future.

Our events make room for new possibilities and gather social scientists, technologists, artists, activists and entrepreneurs, while fostering discussions and actions which connect our growing plurality to our shared mission — deeply upgrading the basic institutions of democracy and markets.

Conferences are at the core of our mission because they:

- ◆ Develop a powerful global network of forward-thinking, bold, and responsible policymakers, entrepreneurs, and intellectuals
- ◆ Connect with the broad public on radical ideas and pragmatic implementation

VISION FOR THE 2021 RXC ANNUAL CONFERENCE

With **RadicalxChange's Third Annual Conference**, we want to share a vision for how RadicalxChange-inspired social technologies can pave the way towards a more democratic future. Some success stories:

- ◆ The US State of Colorado using innovative RadicalxChange voting systems in the legislative and executive branches;
- ◆ Taiwan's innovative response to COVID-19 and other public problems with community driven data coalitions;
- ◆ Communities and startups using RadicalxChange mechanisms for infrastructure finance.

November 2021

24 hours with local and remote keynotes, panels, workshops and unconference sessions

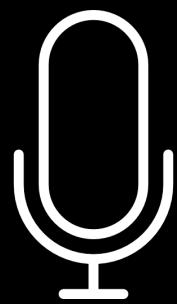

Colorado & Taiwan: ~150 attendees each
Online: ~1,000 participants & >20K viewers

GitxChange2: Quadratic Funding Hackathon

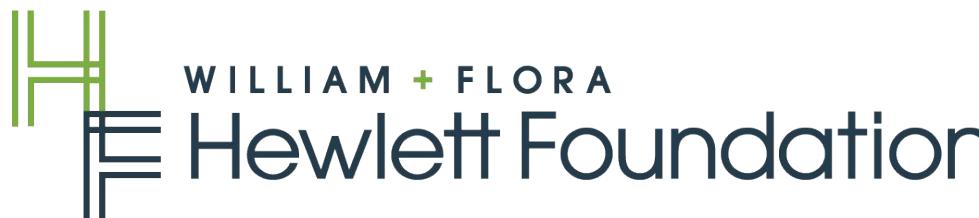

From **10/05/2020** To **11/01/2020**

The hackathon includes a variety of bounties on Quadratic Funding. It brings together creative companies, non-profits, governments, and individuals, who would like to incentivize more democratic public goods governance in the context of their cause.
